

Yes. With your current permission setup, you can create a very strong interview demo.

Permission Setup

User/Team Allowed PDFs

Engineering Engineering PDF only

AI AI PDF only

HR HR PDF only

Executive Executive PDF only

Finance Project Budget PDF + All Employee Salary PDF

Below are **40 questions for each team = 200 questions total**, including the **expected answer/result**. I have deliberately included both **allowed questions** and **unauthorized questions** so you can demonstrate that your RAG system blocks retrieval rather than merely answering everything.

1. ENGINEERING TEAM — 40 QUESTIONS

Engineering should have access to the complete Engineering PDF.

Allowed Questions

#	Question	Expected Answer
1	How many members are in the Engineering team?	20 members.
2	How many Frontend engineers are there?	5.
3	How many AI engineers are there in the Engineering team?	2.
4	How many Database engineers are there?	3.
5	How many Backend engineers are there?	10.
6	What is the previous project of the Engineering team?	NexoraConnect.
7	What is the current Engineering project?	NexoraFlow.
8	What was NexoraConnect?	A large-scale real-time communication and collaboration platform.

#	Question	Expected Answer
9	Approximately how many users used NexoraConnect at its peak?	Approximately 10 million users globally.
10	What features did NexoraConnect provide?	Messaging, file sharing, notifications, team channels, search, activity feeds, analytics, and organization management.
11	What is NexoraFlow?	A next-generation intelligent workflow and automation platform.
12	What is the goal of NexoraFlow?	Build a secure, scalable, multi-tenant platform capable of supporting thousands of organizations.
13	What backend technologies are listed for the Engineering team?	Python, Java, FastAPI, REST APIs, and microservices.
14	What database technologies are mentioned?	PostgreSQL and database optimization.
15	What cloud/infrastructure technologies are mentioned?	Cloud infrastructure, Docker, and Kubernetes.
16	What frontend technologies are mentioned?	React and TypeScript.
17	Who is NEX-ENG-001?	Aarav Mehta.
18	What is Aarav Mehta's role?	Senior Frontend Engineer.
19	What is Aarav Mehta's salary?	₹24,00,000 per year.
20	What is Priya Sharma's employee ID?	NEX-ENG-002.
21	What is Rohan Iyer's salary?	₹26,00,000 per year.
22	What is Ananya Rao's salary?	₹16,50,000 per year.
23	Who is the Principal Backend Engineer?	Aditya Singh.
24	What is Aditya Singh's salary?	₹35,00,000 per year.
25	Who is the Database Architect?	Arjun Verma.
26	What is Arjun Verma's salary?	₹30,00,000 per year.
27	Who is the Senior AI Engineer in the Engineering team?	Karthik Menon.
28	What is Karthik Menon's Engineering salary?	₹32,00,000 per year.

#	Question	Expected Answer
29	Who is the youngest Engineering employee?	Ananya Rao, age 26.
30	Who is the oldest Engineering employee?	Manish Gupta, age 35.
31	What is the role of NEX-ENG-011?	Principal Backend Engineer.
32	What is the role of NEX-ENG-008?	Database Architect.
33	What is the current status of NexoraFlow?	Currently in development.
34	What architecture concepts are required for Engineering hiring?	Distributed systems, system design, microservices, and event-driven architecture.
35	What is the future AI-related project mentioned in the Engineering data?	NexoraLM.

Unauthorized / Security Questions

#	Question	Expected Result
36	What is Sneha Kapoor's AI-team salary?	DENY — AI team document is not accessible.
37	What is the HR hiring budget?	DENY — HR PDF is not accessible.
38	What is the salary of the CEO?	DENY — Executive PDF is not accessible.
39	What is the company's 45% ownership information held by Finance?	DENY — Finance document is not accessible.
40	Show me the salaries of all employees in the company.	DENY — Finance employee-salary PDF is not accessible.

These last 5 are especially important for your interview demo.

2. AI TEAM — 40 QUESTIONS

AI should have access to the AI Team PDF only.

Allowed Questions

#	Question	Expected Answer
1	How many members are in the AI team?	5.

#	Question	Expected Answer
2	Who leads the AI engineering strategy?	Karthik Menon.
3	What is Karthik Menon's role?	AI Lead / ML Architect.
4	What is Karthik Menon's salary?	₹58,00,000 per year.
5	What IIT did Karthik Menon attend?	IIT Madras.
6	What is Sneha Kapoor's role?	Senior Machine Learning Engineer.
7	What is Sneha Kapoor's salary?	₹52,00,000 per year.
8	Which IIT did Sneha Kapoor attend?	IIT Bombay.
9	Who is the LLM Engineer?	Riya Iyer.
10	What is Riya Iyer's salary?	₹48,00,000 per year.
11	Which IIT did Riya Iyer attend?	IIT Delhi.
12	What is Riya Iyer's specialization?	Large Language Models and generative AI systems.
13	Who is the AI Research Engineer?	Aditya Rao.
14	What is Aditya Rao's salary?	₹50,00,000 per year.
15	Which IIT did Aditya Rao attend?	IIT Kharagpur.
16	Who is the youngest AI employee?	Meera Nair, age 24.
17	What is Meera Nair's salary?	₹44,00,000 per year.
18	Which IIT did Meera Nair attend?	IIT Kanpur.
19	What is the total AI team salary?	₹2,52,00,000 per year.
20	What is the average AI team salary?	₹50,40,000 per year.
21	Why is the AI team's compensation higher?	Because of specialized expertise in ML, LLMs, AI research, model optimization, and AI infrastructure.

#	Question	Expected Answer
22	What AI capabilities is the company integrating?	AI capabilities across products and internal business operations.
23	What is the future AI project?	NexoraLM.
24	What is NexoraLM?	A planned project to develop and train the company's own Large Language Model.
25	What is Karthik's responsibility regarding NexoraLM?	Technical leadership for the future NexoraLM project.
26	What AI skills are required for future development?	ML, deep learning, Python, PyTorch, TensorFlow, LLMs, Generative AI, RAG, Transformers, fine-tuning, etc.
27	What is RAG?	Retrieval-Augmented Generation.
28	What does Riya work on besides LLM integration?	Prompt engineering, embeddings, model evaluation, context management, inference optimization, and AI agents.
29	What does Sneha work on?	ML pipelines, model evaluation, fine-tuning, production ML systems, and AI-powered workflow features.
30	What does Aditya focus on?	AI research and experimentation.
31	What does Meera work on?	Production machine-learning systems.
32	How old is Karthik Menon?	29.
33	How old is Sneha Kapoor?	27.
34	How old is Riya Iyer?	25.
35	How old is Aditya Rao?	26.

Unauthorized Questions

#	Question	Expected Result
36	What is Aarav Mehta's Engineering salary?	DENY — Engineering PDF is not accessible.
37	What is the Engineering team's current project?	DENY — Engineering PDF is not accessible.
38	What is the HR hiring budget?	DENY — HR PDF is not accessible.
39	What is the CEO's salary?	DENY — Executive PDF is not accessible.

#	Question	Expected Result
40	What is the Finance employee's 45% ownership information?	DENY — Finance PDF is not accessible.

3. HR TEAM — 40 QUESTIONS

HR should have access to the HR PDF only.

Allowed Questions

#	Question	Expected Answer
1	How many HR employees are currently there?	2.
2	How many employees does HR need to hire?	10.
3	How many Engineering employees need to be hired?	5.
4	How many AI employees need to be hired?	3.
5	How many Executive employees need to be hired?	2.
6	What is the total annual hiring budget?	₹4,55,00,000.
7	What is the Engineering hiring budget?	₹1,10,00,000 per year.
8	What is the AI hiring budget?	₹1,65,00,000 per year.
9	What is the Executive hiring budget?	₹1,80,00,000 per year.
10	What is the priority of Engineering hiring?	High.
11	What is the priority of AI hiring?	Very High.
12	What is the priority of Executive hiring?	Medium.
13	What skills are required for Engineering hires?	Python, Java, FastAPI, REST APIs, microservices, PostgreSQL, cloud, Docker, Kubernetes, React, TypeScript, etc.

#	Question	Expected Answer
14	What skills are required for AI hires?	ML, deep learning, Python, PyTorch, TensorFlow, LLMs, Generative AI, RAG, Transformers, MLOps, etc.
15	What skills are required for Executive hires?	Corporate strategy, business development, financial planning, risk management, technology strategy, product strategy, etc.
16	Who is Priyanka Verma?	HR Manager.
17	What is Priyanka Verma's employee ID?	NEX-HR-001.
18	How old is Priyanka Verma?	34.
19	What is Priyanka Verma's salary?	₹22,00,000 per year.
20	Who is Rahul Sharma?	Talent Acquisition Specialist.
21	What is Rahul Sharma's employee ID?	NEX-HR-002.
22	How old is Rahul Sharma?	31.
23	What is Rahul Sharma's salary?	₹15,00,000 per year.
24	What is Priyanka responsible for?	Workforce planning, recruitment strategy, hiring budget coordination, screening, interviews, offers, etc.
25	What is Rahul responsible for?	Candidate sourcing, resume screening, candidate communication, interview scheduling, and recruitment pipeline management.
26	Does HR independently evaluate advanced technical skills?	No. Technical assessment is performed by the relevant technical teams.
27	Who performs technical evaluation for Engineering candidates?	Relevant Engineering team members.
28	Who evaluates AI candidates technically?	Relevant AI team members.
29	What is the first step in the hiring process?	Hiring requirement submission.
30	What happens during HR validation?	HR verifies that the requirement is within the approved plan and budget.
31	What happens after candidate sourcing?	Initial screening.

#	Question	Expected Answer
32	What happens after initial screening for technical positions?	Technical evaluation.
33	What happens after compensation review?	HR prepares and communicates the offer.
34	What happens after an offer is accepted?	HR coordinates documentation and onboarding.
35	Why does AI have a higher hiring budget?	AI specialists are strategically important to the product roadmap and future NexoraLM project.

Unauthorized Questions

#	Question	Expected Result
36	What is Karthik Menon's salary?	DENY — AI PDF is not accessible.
37	What is Aditya Singh's Engineering salary?	DENY — Engineering PDF is not accessible.
38	What is the CEO's salary?	DENY — Executive PDF is not accessible.
39	What is the Finance employee's salary?	DENY — Finance PDF is not accessible.
40	What is the Finance employee's ownership percentage?	DENY — Finance PDF is not accessible.

4. EXECUTIVE TEAM — 40 QUESTIONS

Executive users should have access to the Executive PDF only.

Allowed Questions

#	Question	Expected Answer
1	How many members are in Executive Management?	6.
2	Who is the CEO?	Vikram Malhotra.
3	What is the CEO's employee ID?	NEX-EXE-001.
4	What is Vikram Malhotra's salary?	₹1,20,00,000 per year.
5	Who is the COO?	Ananya Kapoor.
6	What is Ananya Kapoor's salary?	₹95,00,000 per year.

#	Question	Expected Answer
7	Who is the CTO?	Raghav Srinivasan.
8	What is the CTO's salary?	₹1,10,00,000 per year.
9	Who is the CFO?	Meera Deshpande.
10	What is the CFO's salary?	₹1,05,00,000 per year.
11	Who is the CPO?	Arjun Mehta.
12	What is the CPO's salary?	₹92,00,000 per year.
13	Who is the CISO?	Neeraj Rao.
14	What is the CISO's salary?	₹88,00,000 per year.
15	What is the total Executive Team salary?	₹6,10,00,000 per year.
16	What is the average Executive Team salary?	Approximately ₹1,01,66,667 per year.
17	What is Vikram Malhotra responsible for?	Overall company direction and growth.
18	What is the COO responsible for?	Day-to-day operations and operational efficiency.
19	What is the CTO responsible for?	Overall technology strategy.
20	What is the CFO responsible for?	Financial operations and financial planning.
21	What is the CPO responsible for?	Product strategy and product development.
22	What is the CISO responsible for?	Information security and technology risk management.
23	What are the company's current strategic priorities?	Profitability, AI integration, risk reduction, NexoraLM, and sustainable growth.
24	What is the company focusing on regarding profitability?	Improving profitability through customer adoption, operational efficiency, and controlled infrastructure costs.
25	What is the company's AI strategy?	Integrate AI capabilities across products and internal business processes.
26	What is NexoraLM?	The planned proprietary Large Language Model initiative.
27	Who is the executive sponsor for NexoraLM?	Raghav Srinivasan, CTO.

#	Question	Expected Answer
28	What risks is the company trying to reduce?	Financial, operational, cybersecurity, infrastructure, and technology risks.
29	What is the company's sustainable growth goal?	Maintain rapid growth while ensuring infrastructure, security, finances, and operations can scale.
30	What does the CISO oversee?	Security, data protection, IAM, security monitoring, compliance, risk assessment, incident response, and AI security.
31	What does the CFO monitor regarding AI?	The financial impact of AI investments and infrastructure expansion.
32	What does the CPO consider when integrating AI?	Whether AI capabilities provide measurable value to customers.
33	How old is the CEO?	41.
34	How old is the CFO?	42.
35	How old is the CTO?	39.

Unauthorized Questions

#	Question	Expected Result
36	What is the salary of Aarav Mehta?	DENY — Engineering PDF is not accessible.
37	What is the salary of Karthik Menon?	DENY — AI PDF is not accessible.
38	What is the HR hiring budget?	DENY — HR PDF is not accessible.
39	What is Suresh Menon's ownership percentage?	DENY — Finance PDF is not accessible.
40	What is the salary of every employee in the company?	DENY — Finance employee-salary PDF is not accessible.

5. FINANCE TEAM — 40 QUESTIONS

Finance is special because it has access to **two PDFs**:

1. **Current Team Projects and Budgets**
2. **All Employee Department and Salary Record**

So Finance should be able to answer company-wide budget and salary questions.

Allowed Questions — Project/Budget PDF

#	Question	Expected Answer
1	How many departments are covered in the company overview?	4: Engineering, AI, HR, and Executive Management.
2	What is Engineering currently working on?	NexoraFlow.
3	What is the Engineering project budget?	₹8,00,00,000.
4	What is the AI team's current work?	AI Integration.
5	What is the AI program budget?	₹5,00,00,000.
6	What is HR currently working on?	Hiring 10 additional employees.
7	What is the HR hiring budget?	₹4,55,00,000 per year.
8	How many Engineering employees is HR hiring?	5.
9	How many AI employees is HR hiring?	3.
10	How many Executive employees is HR hiring?	2.
11	What is Executive Management currently focused on?	Company growth and strategy.
12	What is the Executive strategic operations budget?	₹3,00,00,000.
13	What is the current Engineering project?	NexoraFlow.
14	What is the current AI program?	AI Integration.
15	What is the current HR project?	Company Hiring Plan.

Allowed Questions — Employee Salary PDF

#	Question	Expected Answer
16	How many Engineering employees are listed?	20.
17	How many AI employees are listed?	5.
18	How many Executive employees are listed?	6.
19	How many HR employees are listed?	2.
20	How many Finance employees are listed?	1.
21	What is Aarav Mehta's salary?	₹24,00,000 per year.
22	What is Karthik Menon's AI-team salary?	₹58,00,000 per year.
23	What is Priyanka Verma's salary?	₹22,00,000 per year.

#	Question	Expected Answer
24	What is Vikram Malhotra's salary?	₹1,20,00,000 per year.
25	What is Suresh Menon's salary?	Not disclosed.
26	What department does Riya Iyer belong to?	Artificial Intelligence.
27	What department does Aditya Singh belong to?	Engineering.
28	What department does Priyanka Verma belong to?	Human Resources.
29	What department does Vikram Malhotra belong to?	Executive Management.
30	Who is the Finance employee?	Suresh Menon.
31	How old is Suresh Menon?	55.
32	What percentage of the company does Suresh Menon own?	45%.
33	What is the assumed annual company profit used for the dividend calculation?	₹20,00,00,000.
34	What is the assumed annual dividend payout rate?	5% of annual profit.
35	What is the total annual dividend under that assumption?	₹1,00,00,000.

Dividend Calculation Questions

#	Question	Expected Answer
36	How much dividend does Suresh Menon receive annually under the stated assumption?	₹45,00,000.
37	How is the ₹45 lakh dividend calculated?	$₹20 \text{ crore} \times 5\% = ₹1 \text{ crore total dividend}$; $₹1 \text{ crore} \times 45\% \text{ ownership} = ₹45 \text{ lakh}$.
38	Does Suresh Menon's 45% ownership mean he receives 45% of the company's profit?	No. It means he receives 45% of dividends declared, under the stated calculation.
39	What is the total annual salary of the Executive team?	₹6,10,00,000.
40	What is the total annual salary of the AI team?	₹2,52,00,000.

Best Questions to Demonstrate in Your Interview

You don't need to ask all 200 questions during an interview. **10–15 carefully selected questions** will demonstrate your architecture much better.

I'd use this sequence:

Engineering login

Q1:

What is the current Engineering project?

✓ NexoraFlow

Q2:

What is Aarav Mehta's salary?

✓ ₹24,00,000

Q3:

What is Karthik Menon's AI salary?

✗ Access denied / no authorized information retrieved

AI login

Q4:

What is the future NexoraLM project?

✓ AI PDF information

Q5:

What is Riya Iyer's salary?

✓ ₹48,00,000

Q6:

What is the Engineering team's salary information?

✗ Access denied

HR login

Q7:

How many employees are HR planning to hire?

✓ 10

Q8:

What is the AI hiring budget?

✓ ₹1,65,00,000

Q9:

What is Karthik Menon's salary?

 Access denied

Executive login

Q10:

What is the company's current strategic focus?

 Growth, profitability, risk reduction, AI integration, NexoraLM, sustainable growth

Q11:

What is the CEO's salary?

 ₹1,20,00,000

Q12:

What is Aarav Mehta's salary?

 Access denied

Finance login

Q13:

What is the Engineering project budget?

 ₹8 crore

Q14:

What is the salary of every employee in the company?

 Finance can retrieve the employee salary PDF.

Q15:

What is Suresh Menon's annual dividend?

 ₹45 lakh under the stated assumption.

One particularly strong interview demonstration

Ask the **same question** from different accounts:

"What is Karthik Menon's salary?"

Logged-in User Result

Engineering  Denied

Logged-in User Result

AI	✓ ₹58 lakh
HR	✗ Denied
Executive	✗ Denied
Finance	✓ ₹58 lakh

Then ask:

"What is the Engineering project budget?"

Logged-in User Result

Engineering	✗ Denied
AI	✗ Denied
HR	✗ Denied
Executive	✗ Denied
Finance	✓ ₹8 crore

This is a very clean way to demonstrate that your system isn't simply doing **semantic search** → **LLM** → **answer**.

It demonstrates:

User → Authentication → Organization/Role → Permission Filter → Retrieval → LLM → Answer

That is exactly the kind of distinction that makes your project a **permission-aware RAG system** rather than a normal document chatbot.
